L4 Introduction and Overview (Mon., Jan. 22, class 60min)

This program is about integrating role, goal and soul. Together we'll scientifically explore the sacred signatures in the heart, hands and fingerprints to understand the deeper meaning of our existence. Expose yourself to guiding principles of Soul Centered readership. Prepare yourself to realize and embrace hidden aspects within yourself. Learn how to help others uncover treasures within and move from mediocre to magnificent with spirit.

1. Vocational Indicators Part I (Mon., Feb. 5)

This class is to help you as a Professional and Certified Hand Analyst help your clients identify and clarify the natural and unique work tendencies literally mapped in their hands. Through identifying potential strengths and weaknesses, you'll help clients understand and accept themselves at deeper levels. Identify key components in a set of handprints to learn how to assist your client to journey more swiftly into their right life. Receive a Vocational Indicators template and see how to use it step-by-step with client prints. Contemplate how to access your intuition before and during this sacred work.

2. Vocational Indicators Part II (Mon., Feb. 19)

Continue using the hands to help your client identify, clarify and live his or her Soul Mission! Revisit more components and forgotten jewels in the hands to see how they can support vocational selection. Together we'll complete vocational assessments for two sample clients. Receive a second Vocational Assessment Template to help your client cultivate their most fulfilling life. Receive a list of 30 different vocations with associated markings you'd expect to find in the hands.

3. It's All About Love, Baby (Mon., Mar. 5)

This class is to help you as a Heart-Centered Hand Analyst help your client understand their natural and unique tendencies for loving mapped into their hands AND combine those tendencies with desire and choice for healthy relationships – with others and themselves. Explore the psychological barriers to true love, pinpoint patterns of the heart and learn how to offer sound solutions for successful relationships. Probe into “How I love best” based on hand shapes, heart lines, life schools and other relationship markers including Mate Selectors (Mars, Jupiter, Apollo, Mercury and Moon). Analyze handprints for predictable relationship reactions and contribute to ‘quick hits’ on two couples’ handprints. Compatibility templates included.

4. All in the Family (Mon., Mar. 19)

This class is to help you as a Family Centered Hand Analyst help families, work groups and communities better understand their combined purpose, challenge points and how to advance toward their mission. To do this we’ll access the combinations of impressions on families of fingerprints and the lines in their hands. You can help small clans blend their talents for successful relationships and growth, as a group. Help individuals in families or workgroups see their part in relationships, and how their behaviors affect the movement of the group – in a positive or negative direction. Learn how to analyze three different clan combinations, identifying family purpose, so you can immediately put this tool to work in your practice.

5. Gift Markings ~ What do *they* want us to know and do? (Mon., Apr. 2)

Together we’ll delve more deeply into a few of **your** individual Gift Markings, combinations of Gift Markings and unusual markings. Let’s merge into the deeper consciousness of the intentions in these etchings. Whether you own the markings or not, you can create space tonight, to explore and embrace these universe-calling signatures. *Your* handprints will be examined for gift markings with interpretations from your teacher and classmates.

6. Advancing on your Life Path with Soul Psychology (Mon., Apr. 16)

This class is to help you as a spirit having a human experience to notice, understand and make choices for a fulfilling and meaningful living. Let’s play with this teaching and assumption that you actually have chosen a Life Path to master here at Life University. Let’s pause to contemplate our existence, revisit our Life Path Blueprints (Master Disseminator of Knowledge, Courageous Beacon of Light, All Heart, Master of Rhythm and Harmony), and then put it all together with affirming and empowering Mantras specifically created for you.

7. and 8. Challenge Markings in the Hands and How to Frame the Message Part I (May 7) and Part II (May 21)

This class is designed to inspire you to approach your hand analysis practice as a Whole Person Alchemist. You are a master mixer describing the human personality characteristics with the Soul's Curriculum. Combining a series of challenge markings can point you directly to critical pieces of the human puzzle, a.k.a. paradox. Client templates are included so you can simplify this material and immediately deliver your readings with the language of the heart, to uplift and inspire your client. We'll contemplate negative and positive, duality and transcendence. Clearly identify 18 challenge markings with new ways how to talk about them during your readings.

9. Advanced Hand Shapes and Archetypes (Mon., Jun 4)

This class is designed to deepen your knowledge and experience in the area of hand shape archetypes. We will review the Hand Shape Archetype Matrix based on Richard Unger's system with 16 handprint samples. We'll focus on a variety of hand shapes with other dominant features including finger zones and mounts on the palm to articulate the basic temperament and behavioral tendencies of each example. Use this material to build on your individual, vocational and group readings.

10. Build Your Soul Centered Profit Pyramid (Jun. 18)

If you have lots of ideas on how to serve your clients but you're not sure where to start in designing, pricing and delivering your content, it's critical to get your thoughts organized into a simple, dynamic framework. This framework is called a Profit Pyramid. With experiential exercises you'll outline key pieces of your practice, see how they fit together and watch it almost build itself. This will help you set your fees and predict your income. Generating more income is a lot easier when you have a Profit Pyramid. Design 'that thing that you do' called your Signature System® via a recorded workshop. Even if you've already designed a signature system you most likely have a new offering calling for birth.

11. The Art of Blending and Threading (Jul. 9)

Your client handprints will be used as we expand the art and skill of blending significant markings in the hands. Practice getting to the key of the hand through weaving together eye-catching markings using a simple and proven client-reading-template. Handprints will be analyzed and discussed with the aim of integrating role, goal and soul for deeper self-awareness and personal empowerment.

12. Tapping into the Soul of Your Business (Jul. 23)

To tap into the soul of your practice it's important to assess what this means to you, your intentions, mindsets, identification where you are on the path, where you want to be, and concrete steps to get there. Let's explore the concept of soul and success and where it is in your business. You will be encouraged to dialog about your Soul Centered (or Heart-Centered) Practice. One student will be

invited to volunteer to reveal the root cause of a lesson-block using EFT, and clear unconscious blocks to success. Pre-work is assigned to grow with soul.

13. The Healers Path (Aug. 13)

This class is to help you, as a Healer, examine the concepts, practicalities and subtleties of deep healing work. We'll contemplate the definition of healing, further clarify your role in this sacred function, consider how, when and why you assist people to improve, progress and expand in consciousness. Investigate various qualities that create wholeness within yourself and others. Assess how you're *engaged* and consider if you'd like to make any changes in your practice.

14. Fingerprint Village (Aug. 27)

What do you do with weird and rare fingerprints? How do you put them in context with the other fingerprint patterns? What do you do if a fingerprint stumps you? The purpose of this class is to look at, and crawl into advanced fingerprint variations. We'll look at an assortment of unusual and challenging fingerprints and figure out what to do with them on the hands they belong to. Explore the frequency of fingerprint impressions on each digit and the Moon.

15. Tiny Tots and Fingerprints (Sep. 10)

This class is designed to give you a broad look at hand analysis with children, including babies and teens. The content is based on the last eleven years of my personal experience printing and reading youngsters' hands, and most importantly, dialoging with parents about their children. Imagine the difference in a life by knowing the soul's fulfillment formula as early in life as possible. While babies and children may not understand what you say, their parents will. We'll consider how teens are validated when they hear about their life purpose. Learn how you can...

- ♥ Guide parents to reframe their perceived discomforts and potential pain about their children's ensuing challenges.
- ♥ Translate, to parents, their child's life lesson into benefits.
- ♥ Inspire parents to help their children be who they are designed to become.
